KeySource Bank Moves In Diamond View II as First Tenant

DURHAM, N.C. – May 30, 2008 – KeySource Commercial Bank becomes the first tenant to move into the Diamond View II building recently completed at 280 S. Mangum Street in the outfield of the Durham Bulls Athletic Park. KeySource Bank just 14 months old moved from the American Tobacco Campus where it grew to \$90 million in assets. The bank's new location is on the first floor off the lobby overlooking the ballpark. Don Draughon, President and CEO states that, "the views are spectacular and we expect customers will want to come to the bank just to experience the atmosphere here. One of the benefits of being a customer of the bank is that you will be able to reserve our state of the art conference room." There are no teller lines at the bank as the bank has only private offices to conduct deposit and loan services. Although the bank's focus is on businesses, professionals, and real estate companies they do offer personal banking services.

KeySource Commercial Bank will be hosting a ribbon cutting May 30th 2008 at noon in the lobby of the 280 S. Mangum Street Diamond View II location. Also an all day Open House will be held Wednesday June 4th at the bank with free ice cream and promotional prizes.
